F54 INTERN

Hi! My name is Cherylynne Eddie, I am 25 years old. I am currently undertaking a 3-month internship at Future54 in a Marketing, Business Development and Research role. I recently graduated from Swinburne University of Technology Sarawak Campus in Kuching, Sarawak, Malaysia with a bachelor's degree in International Business.

My favourite building in London is the Palace of Westminster (Houses of Parliament) this is because of its unique architectural design and 1,000 years of history. I like that it is one of the most iconic buildings in London and that it is recognised from all over the world as a symbol of old and modern day politics.

I am keen to learn about the whole lifecycle of a building from design to completion during my time here. By gaining experience in a business development & marketing role, it is helping me to enhance my communication and social skills as well as improve my English. It is great to meet lots of likeminded people in the industry and to assist with creating relationships with new contacts and potential Clients. I think that it is important to have strong working relationships with your Clients but you should also be able to have fun with them.

London has a wealth of knowledge and experience in property and construction and I am very pleased I have chosen here for my internship. Part of my Father's business is construction related back in Malaysia and I am looking forward to sharing my experiences and what I have learnt with him upon my return.

I love learning about the English culture and I hope to apply these skills when I go back to my own country.
